Copyright, Canada, 1953, by Henderson Directories Ltd., 279 Garry St., Winnipeg

# Introductory

The present volume for 1953 is the 18th edition of Henderson's Directory of Medicine Hat and Redcliff. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all parts and includes all essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

## THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION starting on page 5 contains information about Civic History and Industry, as well as a complete list of Apartment and Business Blocks.

## THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 21 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street, and showing the occupant.

The intersecting streets are shown in the order that they come.

△ Denotes that there is a Telephone in the house.

♦ Denotes that someone living in the house is the owner.

## THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 85.

## THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY at the back of the book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

## MEDICINE HAT POPULATION, in excess of 18,000

The Directory estimate of population is based on the actual number of individual's names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Medicine Hat and Redcliff Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Medicine Hat may be obtained.

## ADVERTISING MEDICINE HAT

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully,

The Publishers,

HENDERSON DIRECTORIES LIMITED.

September, 1953

## PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HENDERSON DIRECTORIES LIMITED,  
PUBLISHERS.

## LOCATION

The City of Medicine Hat is beautifully situated in the Valley of the South Saskatchewan River, almost midway between Moose Jaw, Sask., and Calgary, Alberta. It covers an area of over 10,000 acres, and is the trading centre for a very large farming and ranching territory. Its position as the main distributing point of South Eastern Alberta is clearly indicated by the fact that it is a divisional point on the Canadian Pacific Railway's transcontinental main line, and also the junction of that line and the Crow's Nest Pass line of the same Railway. In addition, it is situated on the Trans-Canada Highway, where the latter is joined by Highway No. 3 from Lethbridge and points West. The City also owns and operates its own airport, which is served by Trans-Canada Airlines.

## HISTORY

Medicine Hat had its origin with the extension of the Canadian Pacific Railway, which reached this point in 1883. It was incorporated as a town in 1899, and by 1907 was formally incorporated as a City. The period of 1907 to 1914 was an era of greatest expansion that was only culminated by the outbreak of the First World War.

Population trend during the period between the two Wars was not particularly marked, but in recent years, it has shown a steady and rapid climb. From a figure of 9529 in 1940, the population has grown to the present estimate of 18,000.

## NATURAL GAS

This is the City's most valuable resource. In 1892, when a C.P.R. work gang was drilling for water, gas was discovered. In 1905 the City interested itself in drilling a test well, and an enormous supply of dry gas was found at a depth of 1,000 feet. It was then decided to develop this resource on a municipal basis and it has proved to be the main feature of attraction to industry, which was not slow in taking advantage of a cheap source of fuel, which is available to the largest users at a rate equal to coal at 50 cents per ton.

The City's leases extent cover 3.71 townships, on which it has drilled wells to the number of 41, with an additional allowable of 39 more wells. It is considered by competent authorities that there is a sufficient reserve of gas to provide for the City's present and anticipated requirements for 100 years. Primary pressure at the well averages 550 pounds per square inch. The gas is of the dry variety, composed of 99.47% methane, with 1050 B.T.U.'s per cubic foot.

## POWER

Owing to the possession of natural gas, the City has been able to produce electrical power by steam turbine at a relatively low cost

Up to the present time our electrical potential has been 12,200 KW, but with the completion shortly of a substantial addition to the power plant and the installation of a new steam turbine generator an additional 30,000 KW will be added. By agreement with Calgary Co. surplus power thus generated will be made available to their network, but the plant is under City ownership, with an agreement providing for local industrial needs as they develop.

## WATER

Ample water is provided by the City Utility supplies being obtained from the South Saskatchewan River, on the banks of which the Power Plant is situated. The reservoir has a capacity of 3,000,000 gallons. Domestic consumption which is very high, is not metered, being on a flat rate basis of \$1.75 per month for a dwelling of 5 rooms or less, plus 15c per month for each additional room.

## COAL

Within a few miles of the city limits are vast quantities of high grade lignite coal, which is being mined and distributed to the surrounding country at an exceptionally low cost to the consumer.

## INDUSTRY

With its location on the main line of the Canadian Pacific Railway, and on the Trans-Canada Highway, Medicine Hat offers manufacturers speedy handling of freight and express East and West. In addition, ample supplies of cheap fuel and power, coupled with abundant water, makes the city an ideal location for industrial enterprise.

From the time that Natural gas was discovered the City has attracted large industry, the main types being as follows:

## CLAY PRODUCTS

This is one of our leading industries and the one most local in character, as large clay deposits are on hand to supplement other supplies of raw material shipped in from outside points, principally Saskatchewan.

There are five modern plant employing 600 workers, turning out large quantities of ceramic wares as follows:

Alberta Clay Products Ltd.—Vitrified sewer pipe, flue lining, Etc.  
Medicine Hat Potteries—Earthenware dishes, and fancy material.  
Medalta Potteries Ltd.—Semi Porcelain dinner ware, crocks Etc.  
National Porcelain Ltd.—Porcelain insulators.  
Medicine Hat Brick and Tile Co. Ltd.—Brick, building tile, Etc.

## FLOUR MILLING

Medicine Hat is one of the leading milling cities of Western Canada, with four flour mills, possessing a daily capacity totalling 5,000 barrels of flour a day, as well as breakfast cereals, animal foods, and by-products.

The four mills, employing 315 people are as follows:

Company	Bushels Capacity
Lake of the Woods Milling Co. Ltd. ....	250,000
Maple Leaf Milling Co. Ltd. ....	500,000
Ogilvie Flour Mills Co. Ltd. ....	500,000
Alberta Linseed Oil Co. Ltd. ....	155,000
(Linseed Oil and Oil Cake & Meal)	

## GREENHOUSES

Due to it's abundance of sunshine, and cheap fuel Medicine Hat has attracted greenhouse production. There are at present some sixteen greenhousss operating here, with a total of twenty three acres under glass, including the Medicine Hat Greenhouses Ltd., possessing 10½ acres and being the second largest greenhouse in Canada. From these are produced an annual revenue of \$1,500,000 from the sale of flowers and vegetables from the Great Lakes to the Pacific Coast.

In addition to the greenhouses proper many large irrigated gardens produce summer crops of vegetables, including an excellent variety of table corn for which this City is famous.

## METAL INDUSTRIES

In addition to the C.P.R. shops, Medicine Hat has a foundry, owned by the Alberta Foundry and Machine Co. Ltd., in which all types of metal work are done. In addition the Success Automatic Land Leveller Co. Ltd. turns out implements especially designed for irrigation farming purposes.

### BANKING INSTITUTIONS

Branches of the following chartered banks are located in this city: Montreal Royal, Dominion and Canadian Bank of Commerce.

The bank clearings show the substantial financial growth of the city. We give the returns showing the past ten years:

1943 .....	\$24,500,569.00
1944 .....	27,264,156.00
1945 .....	28,140,957.00
1946 .....	32,608,615.00
1947 .....	39,456,094.00
1948 .....	46,097,370.00
1949 .....	47,222,391.00
1950 .....	45,500,532.00
1951 .....	54,672,881.00
1952 .....	67,221,951.00

### RANCHING AND FARMING

Long before the advent of the farmer, ranching had been followed extensively in this area. The district is the centre of the "Short Grass" country, whose prairie wool produces beef of unrivalled quality. Large cattle ranches still operate in the area utilizing open ranges that would otherwise be unsuited to farming, and the monetary returns from annual beef sales accounts for no little portion of the cash income of the City businesses.

The area devoted to farming is very wide, and while the district is a hazardous one, due to lack of assurance of sufficient annual rainfall, substantial quantities of wheat invariably of No. 1 quality, are grown in the district.

To overcome the hazards of drought, two Irrigation Schemes, now rapidly drawing to completion, will ensure the Western district of Medicine Hat's farming territory of the required moisture. The St. Mary-Milk River scheme, will irrigate approximately 100,000 acres, south of the South Saskatchewan River while a similar number of acres will be opened up for irrigation farming north of the same River, when the Bow River Development is completed. Some of this water will reach us in 1954, and from that time on, steady increases will occur in the irrigated area, with the consequence of vastly increased farming population, and at the same time, a similar increase in the City through the establishment of secondary industries to process the products of irrigated farms. The future prospects for continual growth in the City and immediate district are therefore bright.

### ASSESSMENT AND TAXATION

## GENERAL

The City contains four Wholesale Houses and enjoys all the retail outlets suitable for a community of its size. There are at the present time 155 retail outlets of importance, including a departmental store.

Approximately 5000 homes are located here, with about 70% of them family owned dwellings. There are approximately 700 people employed by the C.P.R., 1050 by industry and 2000 in various ways. The labour force is subject to increase during a considerable portion of the year by farm workers.

Ample facilities for comfortable living are provided by two beautiful parks, two up-to-date outdoor swimming pools, two golf courses, hockey and skating arena, a curling club, tennis courts, etc., while there is easy access to excellent hunting and fishing grounds. The Medicine Hat Stampede, a three day annual event, is second only to the famous Calgary Stampede, and is widely patronized.

Medicine Hat has the first hospital built between Winnipeg and Vancouver. It is hoped that this will shortly be replaced by a new 200 bed Municipal Hospital, now in process of formation. Excellent medical and dental care is available, as well as other healing methods such as chiropractic.

Ample educational facilities are provided by a composite High School, eight Public and three Separate Elementary Schools, a Roman Catholic Academy, a Lutheran theological college, and a business college. A million dollar technical High School wing is opening this fall, and plans are already being made for completion of the academic wing which will cost an additional two million dollars.

All Christian denominations are well represented here, and the City possesses several imposing Church edifices. Among the denominations most largely represented are Anglican, Presbyterian, Roman Catholic, United Church, Baptist, Christian Science, Lutheran and Jewish.

# System of Street Names and Numbering

---

The city has been divided into four sections, namely: North, South, West, and the district south of the river and east of Division Avenue, which has no name now. The North district is north of the river and east of Division Ave. and is that part which was formerly known as Northeast. The South district is south of the river and west of Division Ave. formerly known as Southwest. The district now known as West is that part which lies north of the river and west of Division Ave., and was formerly known as Southeast, and comprises that part situated south of the river and east of Division Avenue. This district now has no name.

The number of the street will indicate the distance from the divisional street or avenue. The abbreviations N., etc., will be used in each case. The river is the dividing line for the streets and consequently Esplanade will be First Street or First Street West, according to whether east or west of the West Road Allowance.

The Avenues are numbered from the West Road Allowance, which will be known as Division Ave. On the north side of the river the other avenues will be First, Second, etc., North and West, while on the south side of the river the avenues will have no district name or will be South according to whether it be east or west of Division Avenue, and will be numbered in the same way from Division Avenue.

South Railway St. and North Railway Street will retain their names. The streets on the hill and south of the C.P.R. tracks, formerly known as 5th A. B. C. and D. are now changed to Aberdeen, Belfast, Cambridge, and Dundee. On the north side of the C.P.R. tracks, the streets formerly known as

5th, A, B, C, D, E, F, and G, are now changed to Braemar, Balmoral, Ross, Yull, Dominion, Queen and Elm. The portion of Sixth Street which lies north of the C.P.R. tracks is now known as Bridge Street.

In numbering the streets it was found best to begin not with 100, as was first planned, but with 1. Thus in the first block from the dividing avenue or the river the numbers begin with 1. In the second block they begin with 101, and in this way the number of the block is always one more than the first figure or figures of the street number. Thus number 532 would be in the sixth block.

In determining location with the new names and numbers it will be necessary to remember several things:

First—All avenues run north and south.

Second—All streets run east and west.

Third—There are four divisions of the city, and the Streets and avenues are named after their respective divisions, with the exception of the Southeast district, which now has no name.

Fourth—The number of the block is one more than the first figure of the street number.

NOTE—The arrangement in the following Street and Avenue Directory is in numerical order, with Avenues preceding Streets. Streets and Avenues not numerically named appear last in alphabetical order.

Where the odd and even numbers on an Avenue or Street are separated, the south side (odd numbers) on Avenues will appear first, and the west side (odd numbers) will appear first on Streets.

**Winnipeg, Manitoba**

# Common Sense

## About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$
$$1,067,500$$

Consultations or  
Circulation Consulted

# Redcliff

In what must eventually become the manufacturing belt of Western Canada, Redcliff occupies a most prominent position through its immeasurable advantages over the other places.

## LOCATION

Redcliff is situated on the north bank of the South Saskatchewan River, and on the main line of the Canadian Pacific Railway, about mid-way between Winnipeg and Vancouver.

## POPULATION

Approximately 1600—1953

## NATURAL RESOURCES

### Natural Gas

Redcliff has an unlimited supply of Natural Gas, containing 1100 B.T.H. units per cubic feet. This is supplied to manufacturers at five cents per thousand feet (equivalent to coal at a cost of one dollar per ton); and to domestic customers at a correspondingly low rate.

### Clay Deposits

Redcliff has already attained distinction in the production of bricks that are hard, durable and capable of heavy weight and severe resistance. Dry-pressed, wire cut, fireproofing, hollow and all kinds of fancy building brick are manufactured. Three large plants are operating throughout the entire year. Redcliff has all the raw materials for high-grade pottery, Portland cement and other allied lines of manufacture.

### Cheap Power

Nature has given Redcliff a strong advantage in its possession of cheap power (2.4 per horsepower, per annum, per ten-hour day). Cost of production is reduced to a very low point. In the grind of competition, Redcliff's manufacturer has a safe margin of profit on this basis alone. Redcliff's inexhaustible supply of pure water is one of the crowning features of that combination of resources which makes well-balanced development not only possible, but inevitable. Water from the Saskatchewan River is passed through natural system of filtration. A reservoir capacity of 300,000 gallons and efficient distribution to all parts of the city is already accomplished.

### Unique Industrial Opportunity

Redcliff's level, accessible area makes possible the grouping together of allied industries, with all the advantages of easy shipping and distribution for a fraction of the cost involved in other places. "Overhead" charges growing out of the cost of construction at points where territory is uneven, and where other natural disadvantages have to be overcome, are eliminated at Redcliff.

### Big Industries in Operation

- |                                   |                                   |
|-----------------------------------|-----------------------------------|
| 1—Dominion Glass Co. Ltd.         | 4—Redcliff Premier Brick Co. Ltd. |
| 2—Gunderson Brick & Coal Co. Ltd. | 5—Alberta Potteries Ltd.          |
| 3—Redcliff Pressed Brick Co. Ltd. | 6—Redcliff Greenhouses Ltd.       |

### Distributing Area

Within a radius of from a hundred to two hundred and seventy-five miles of Redcliff are Calgary, Edmonton, Regina, Saskatoon, Moose Jaw, Swift Current, Weyburn, Battleford, North Battleford, Athabasca and Lethbridge. And between all these hundreds of smaller towns and villages are clamoring for the products Redcliff's factories will distribute.

### SCHOOLS AND CHURCHES

Redcliff has a large, modern school, well equipped and affording all the advantages to be found in a city many times its size. Church services are conducted under the direction of the various denominations.

### PARKS

Redcliff Memorial Park—w s 3rd St S. E.
